## WORK EXPERIENCE

### Shopify • UX Engineer Intern • Winter 2018

Built and shipped the redesign of developers.shopify.com, leading to an increase in developer conversion from page visits

Developed the component library used to implement Shopify's design system and branding across all products

### Connected Lab • Software Engineer Intern • Summer 2017

Created ConnectedLab.com as part of the company rebranding, showcasing Connected's position as a product development firm and generating increased partnerships

Revamped the design and front end of an analytics application dashboard, improving data visualization shown through user testing

### Innovasium • Software Engineer Intern • Fall 2016

Led the development of multiple core features for a React application processing \$1M of pharmaceutical drugs per year for leading companies

Implemented rapid prototyping in React and HTML/CSS, leading to a 10% increase in deployment speed

### Pivotal Labs • Agile Test Engineer Intern • Winter 2016

Redesigned and constructed internal application used daily by Toronto division, increasing traffic by 15%

Deployed 20+ Android JUnit4 functional/regression tests in Java using Google Espresso, covering smoke tests and login/signup flows
